5402	Currency exchange rate	C n..12	D n..12	The rate at which one specified currency is expressed in another specified currency. Currency Conversion Rate should be given with 5 decimals.	

**Remark:**

Required in the EU Invoice directive.

Invoicing currency is always to be given in the first occurrence of the C504#1 as follows:  
 6347 '2', 6345 Currency, 6343 '4'

In some cases it is a requirement that, for invoicing in foreign currency, the invoice taxable and tax (e.g. VAT) amounts also must be expressed in home currency. Relating this to the CUX segments; authorities would require the invoicing currency and the home currency to be shown, together with the applied rate of exchange (element 5402).

If a different home currency is to be given, the second occurrence of C504 in the CUX segment is to be used as follows:  
 second 6347: '3', second 6345 contains the currency, and second 6343: '3'. Data element 5402 contains the currency conversion rate.
