Remark:

Volvo Global Invoice Non Automotive Products.

This specification provides the content of the message to be used in electronic data interchange between trading partners.

An invoice is a message claiming payment for goods or services supplied under conditions agreed between the seller and the buyer.

- A seller may invoice for one or more transactions
- An invoice may refer to goods, item related to one order, delivery instructions, etc.

Agent/representative declaring the Value Added Tax (VAT).

A business partner who is not established in a EU-Member State, but makes taxable supplies of goods or services in that Member State, may appoint a VAT-registered tax representative, to maintain/preserve VAT records on his behalf and to make any required VAT declarations to the relevant tax authority.

If a company has a VAT registration with an appointed agent/representative in an EU member state, a care of address to the representative must be stated on the invoice.

5402	Currency exchange rate	C n..12	D n..12	The rate at which one specified currency is expressed in another specified currency. Currency Conversion Rate should be given with 5 decimals.	

Remark:

Required in the EU Invoice directive.

Invoicing currency is always to be given in the first occurrence of the C504#1 as follows:
 6347 '2', 6345 Currency, 6343 '4'

In some cases it is a requirement that, for invoicing in foreign currency, the invoice taxable and tax (e.g. VAT) amounts also must be expressed in home currency. Relating this to the CUX segments; authorities would require the invoicing currency and the home currency to be shown, together with the applied rate of exchange (element 5402).

If a different home currency is to be given, the second occurrence of C504 in the CUX segment is to be used as follows:
 second 6347: '3', second 6345 contains the currency, and second 6343: '3'. Data element 5402 contains the currency conversion rate.
