

Type of contract

This is a code specifying special conditions regarding deliveries imported to US. The code is an indication for US Customs of the type of contract under which goods are supplied.

For more information code list ODDC013 (Odette code list)

Companies belonging to the AIAG domain uses this element for government reporting of goods and services traded internationally under the North American Free Trade Agreement.

European suppliers delivering goods and services to European customers within the Volvo Group can ignore this code and select N/A "Not applicable".
